# ENJOY PERFORMANCE.

## DRIVING FUN.

When it comes to driving performance and efficiency, the Corsa engines are at the forefront. Whether petrol, diesel or full electric: the Corsa always offers a dynamic and smooth ride with low or even no emissions.

### SPORT MODE<sup>1</sup>

The sport mode brings more sportiness to the steering, offers a specific pedal mapping and even enhances the engine sound.

### AUTOMATIC 8-SPEED TRANSMISSION

Sportiness meets comfort: the automatic 8-speed transmission with shift paddles<sup>2</sup> improves efficiency and further enhances your driving fun.

<sup>1</sup> Available on Corsa GS Line.

<sup>2</sup> Available with 74 kW (100 hp), fuel consumption combined 5,8–6,0 l/100 km, CO<sub>2</sub> emission combined 128–136 g/km (depending on equipped options) and 96 kW (130 hp), fuel consumption combined 5,6–6,0 l/100 km, CO<sub>2</sub> emission combined 128–136 g/km (depending on equipped options). The fuel consumption and CO<sub>2</sub> emission figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type-approved from 1 September 2018. This WLTP procedure replaces the New European Driving Cycle (NEDC), which was the test procedure used previously. Due to more realistic test conditions, the fuel consumption and CO<sub>2</sub> emissions measured under the WLTP are, in many cases, higher compared to those measured under the NEDC. The fuel consumption and CO<sub>2</sub> emission figures may vary depending on actual conditions of use and on different factors such as: specific equipment, options and format of tyres. Please contact your dealer for further information.

# e MADE EASY.

## UP TO 337 KM RANGE.

The Opel Corsa-e is the future-ready city car that runs exclusively on electricity via on-board batteries and gives you an impressive 337-km range (WLTP)<sup>1</sup> without recharging. Perfect for your everyday use. Enjoy additional privileges like exemption from parking fees, extra parking spaces for electric cars plus free travel on bus lanes and other restricted routes! Simply plug and play for an electrifying, noise-free experience.

## OPEL e-SERVICES

From charging options to mobility services: Opel services for electric vehicles offer a smooth and carefree start into e-mobility.

### CHARGING OPTIONS

Quick and easy: charge your Corsa-e battery up to 80% in 30 minutes<sup>2</sup> only, at specifically designed wall boxes, public charging stations or regular home sockets.

### e-INFO<sup>3</sup>

From battery status to energy usage: the easy-to-understand vehicle data monitors provide the driver with the best possible overview in order to ensure maximum range and efficiency.

<sup>1</sup>Energy consumption Corsa-e (combined) 16,5–16,8 kWh/100 km, CO<sub>2</sub> emission 0 g/km, range (combined) 329 km to 337 km (depending on equipped options). The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type-approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as: speed, thermal comfort on board of the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board of the vehicle, the charging cable and the type and power of the charging station used. Please contact your dealer for further information.

<sup>2</sup>Theoretical value calculated based on 329 km to 337 km WLTP range (depending on equipped options). At a DC fast charger (100 kW). Reflects charging from empty. The charging time may vary according to the type and power of the charging station, the outside temperature at the charging point and the battery temperature.

<sup>3</sup>Available with Multimedia Navi or Multimedia Navi Pro.

# INTELLIGENT SAFETY FEATURES.

## SMART AND SAFE.
